

DataLink

PORTABLE INTERNET HOTSPOT

4 built-in modems

Easy to manage
and control

Ruggedized
casing

Data bonding up
to 200 Mbit

Description

The Mobile Viewpoint DataLink is a portable internet hotspot that can provide up to 200 Mbit data bonding. The hotspot uses the bonded bandwidth of all available IP connections together, providing enormous upload speeds anywhere in the field.

DataLink supports four mobile networks via its built-in modems, LAN and WiFi (if available). The device is housed in aluminium casing and can be managed and controlled via the touch-screen on the unit itself, via the web-based LinkMatrix platform or via the app.

Specifications

INTERFACES

- 1x Ethernet 10/100/1000 Base-T
- 1x HDMI
- 2x USB

INTERNET ACCESS

- WiFi
- Ethernet

AERIALS

- Dome Antenna;
Omnidirectional Array 3 dBi

CONNECTIONS

- 4 modems, LTE(4G), fallback 3G by default
- Upgradable to 8 modems
- WiFi

HARDWARE

- Dedicated appliance 12-24 Volt
- Weighs approximately 1.2 kg
- 20.5 cm x 12.5 cm x 5 cm (WxDxH)

INCLUDES

- 4 times 3 dBi gain; upgradable to 6 depending on number of modems
- PSU 90-220 Volt AC to 12 Volt DC
